Technology Package Features

10" ECOXGEAR Touchscreen

The touchscreen offers the features you need to make every golf cart ride an experience from the E-Z-GO and ECOXGEAR names that you trust. Alongside Bluetooth® connectivity and phone integrations, operators can view vehicle speed and charge level, control their Bluetooth music or AM/FM radio, and set the LED lights for the ECOXGEAR speaker all from the home screen.

ECOXGEAR Elite 28" Soundbar

The 28" ECOXGEAR speaker delivers a rich and powerful sound for any music streaming. The soundbar delivers 8 marine grade speakers which features an IP66 rating to protect against dust and water. Each soundbar is also shockproof to withstand any bumps during travel. The sound and LED lighting system are sure to turn heads on neighborhood cruises or campgrounds.

Backup Camera

Maintain awareness of your surroundings with the integrated backup camera. When the vehicle enters reverse gear, the backup camera seamlessly displays on the screen.

USB Ports

Easily charge your devices with the USB-A or USB-C changing ports. Use the USB-A port to connect your phone to the screen without the use of Bluetooth.
