THE ALL-NEW
RX

LEXUS
EXPERIENCE AMAZING

THE ALL-NEW LEXUS RX

OBSESSION REVEALS ITSELF

To craft the most amazing machines, you don't start with machines at all. You start with people. Experience the all-new Lexus RX range, designed with next-generation technology so intuitive and personal, it feels like an extension of you. And in adding the RX 450h+ to the line-up, obsession reveals itself as intuitive connections merge man with machine.

Model shown: RX 450h+.
South African vehicle specifications may differ.

INTRODUCING LEXUS RX 450h+

With its unique Plug-in Hybrid Electric power source, the RX 450h+ ensures you're always able to make the most of the 136kW, 2.5-litre four-cylinder engine that's paired with a high-capacity lithium-ion battery. And with an electric mode range of approximately 66km, fuel consumption of just 1.3L/100km and all-wheel drive, there's nowhere you can't go.

Model shown: RX 450h+. South African vehicle specifications may differ.

LEXUS RX 350

Reimagined from the ground up, the all-new RX boasts a 205kW, turbocharged 2.4-litre engine and eight-speed automatic transmission. Updated innovations now include standard Lexus Safety System+ 3.0 and e-Latch system with Safe Exit Assist creating class-leading standard safety equipment that puts you first.

LEXUS RX 350h

Enjoy exceptional efficiency and seamless acceleration. The RX hybrid pairs a potent, naturally aspirated 2.5-litre four-cylinder engine with powerful electric motors for an impressive 140kW and 5.4L/100km combined estimate, along with all-wheel drive performance, offering you the best of both worlds, without compromise.

LEXUS RX 500h F SPORT

Our boldest expression of the RX yet. The first-ever RX hybrid F SPORT performance thrills with its innovative turbocharged electrified powertrain, and its intelligent DIRECT4 all-wheel drive system. Boasting an astonishing 202kW of power and a top speed of 210km/h, this is our fastest RX hybrid model to date.

Model shown: RX 500h F SPORT.
South African vehicle specifications may differ.

OBSESSED WITH SUPERIOR POWER

There's no luxury quite like choice, and the all-new RX range's four distinct powertrains will give you a good deal to contemplate. Consider the 2.4-litre turbocharged in-line engine that's rated at 205kW and produces 430Nm of torque at 1700-3600rpm. The 2.5-litre, 140kW petrol-electric hybrid that will deliver fuel consumption of just 5.4L/100km. The unique Plug-in Hybrid Electric Vehicle with its 136kW, 2,5-litre motor and high-performance lithium-ion battery. Or the mighty 202kW and 460nm of torque on offer in our fastest RX hybrid model to date. Choice is luxury, but choice is also power.

ALL-WHEEL DRIVE

Fundamental to this RX's expression of performance is its innovative all-wheel drive (AWD) system, which automatically sends power to two or four wheels as needed to improve traction. The innovative drivetrain can redistribute power between the front and rear axles from 50/50 to as much as 30/70, if needed. Alongside this technology comes Cornering Control that corrects oversteer and understeer. All this ensures you get an engaging drive when you desire it. This is driving, evolved.

Front suspension (2.4L petrol) with AVS.

Rear suspension (2.4L petrol) with AVS.

Engine (2.4L petrol).

ADAPTIVE VARIABLE SUSPENSION (AVS)

The all-new RX is equipped with Adaptive Variable Suspension (AVS) which monitors and collects data to make precision adjustments to optimise control on all road surfaces, in all scenarios. When you find yourself on rough road surfaces, the variable suspension reduces damping force to absorb bumps and provide a smooth, comfortable and luxurious ride.

**THIS ISN'T
DRIVING,
THIS IS
GLIDING.**

Model shown: RX 450h+.
South African vehicle specifications may differ.

EXTERIOR CRAFTSMANSHIP

Model shown: RX 500h F SPORT.
South African vehicle specifications may differ.

OBSESSED WITH REFINED DESIGN

More than a concept. A statement. The all-new RX has been completely reimagined to offer an uncompromising vision of style, luxury and performance. Up front, its excessive reinterpretation of the signature spindle grille is flanked by a pair of exquisite, jewel-like headlamps. Its body, elegantly shaped to evoke power and grace.

And in the rear, the new LED blade tail lamp will ensure that this luxury SUV leaves an indelible impression. Its all-new chassis is lighter, lower and stronger than before and is paired with an expertly tuned suspension to deliver agile handling and a ride that's as smooth as it is responsive. Obsession reveals itself when every facet delivers a superior driving experience.

**THIS IS
NATURE AND
TECHNOLOGY
WORKING IN
SEAMLESS
HARMONY.**

Model shown: RX 450h+.
South African vehicle specifications may differ.

OBSESSED WITH SEAMLESS CONNECTION

Forging a deeper connection between driver and car: this is the philosophy that goes into the driver-focused cockpit of the all-new RX. When crafting the interior, Lexus designers focused on creating a space that was open and inviting, with easy access to the things a driver needs most. Front seats offer an ideal blend of comfort and support, and for the driver, an ergonomically shaped steering wheel and intuitive controls fall easily to hand. From the seating position to the angle of the windshield, everything is optimised to enhance outward visibility. And an elegantly concealed console storage area and available wireless charging tray help provide easy access to all those important day-to-day items. Obsession reveals itself when technology isn't second to none, but second nature.

**MARK LEVINSON® PUREPLAY
SURROUND SOUND**

Unlock a deeper appreciation of sound and experience music in its highest fidelity with available Mark Levinson® PurePlay Surround Sound*. Boasting 1800 watts and 21 speakers* meticulously positioned throughout the cabin, this bespoke system envelops you in a three-dimensional soundscape that's crafted by the same masters who engineer six-figure home audio systems. Hear the world in its full range of colours.

**AMBIENT LED
ILLUMINATION**

Adding intrigue to the interior, available thematic ambient LED lighting can be tailored to suit one's mood. Choose from 64 colour tones and create entire worlds of sensation. Soft lighting also illuminates the area surrounding the vehicle the moment you approach, for added visibility and peace of mind, pushing the boundaries of how a car can make you feel.

LEXUS INTERFACE

Go beyond interaction. Experience connection, where technology can learn to understand you. Case in point, the Lexus Multimedia System seamlessly connects you via touchscreen or voice. The Lexus Multimedia System seamlessly integrates wirelessly to Apple CarPlay or to Android Auto via cable.

HEADS-UP DISPLAY

To help keep your focus on the road ahead, a 10-inch Heads-Up Display projects key information, such as current vehicle speed or specific navigation directions, at customisable heights onto the windshield, connecting the driver to the vehicle like never before.

DIGITAL REAR-VIEW MIRROR

The digital rear-view mirror can help increase your field of vision via a high-definition camera that's designed to provide an unobstructed view of the road behind you. Simply toggle the lever to switch between analogue and digital mirror modes to flaunt the technological powers of the most advanced RX ever.

PANORAMIC ROOF

A retractable panoramic glass roof blends seamlessly with the exterior, giving the passengers in the rear the increased feeling of spaciousness and elevating the interior experience with more natural light.

HEATED AND VENTILATED SEATING

Every RX features multistage heated front and rear seats with available ventilation for optimised support, regardless of the weather. Available heated and ventilated rear outboard seating helps ensure your passengers can ride in complete, personalised luxury.

EXCEPTIONAL CRAFTSMANSHIP

Among its crafted touches, the available interior leather trim is carefully selected from around the world, and only a fraction is considered worthy. The available semi-aniline* leather trim is dyed all the way through, unlike leathers with conventional surface dyes. A higher grade of leather must also be used, since imperfections cannot be hidden. This is interior design, crafted to the highest standard.

OBSESSED WITH PEACE OF MIND

When you're obsessed with safety, every detail matters. That's why the all-new RX includes the Lexus Safety System+ 3.0, an integrated suite of class-leading standard active safety equipment, designed to give you peace of mind, at all times. Obsession reveals itself when peace of mind pioneers a more confident driving experience.

Model shown: RX 450h+.
South African vehicle specifications may differ.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION AND INTERSECTION SUPPORT

INTERSECTION COLLISION AVOIDANCE SUPPORT

INTERSECTION COLLISION AVOIDANCE SUPPORT (CROSSING VEHICLE)

With enhanced radar and camera capabilities, this system is capable of detecting motorcycles and, under certain circumstances, can provide support to ward off or mitigate collisions with oncoming vehicles and vehicles that are crossing at intersections. This intelligent system can also detect cyclists and pedestrians in certain situations, picking them up as potential hazards when turning left or right at an intersection. Should the system detect a potential frontal collision, it can help provide steering assistance and/or automatically brake to help mitigate or avoid collision. Spot the danger before you even know it's there. And in the RX 450+ the system is deployed to provide Intelligent Park Assist to get you in and out of any tight spot.

LANE KEEPING SYSTEM WITH LANE TRACING ASSIST

When all-speed Adaptive Cruise Control with Curve Speed Management is enabled, this hands-on system monitors visible lane markings and can recognise vehicles ahead. To help the driver keep their vehicle centred in the lane, it can provide steering assistance. Designed for peace of mind, the system can even be used in traffic and on highways with gradual curves. Summon your assistant at the simple press of a button.

INTELLIGENT HIGH-BEAM HEADLAMPS

To help provide greater visibility for you as well as other drivers, Intelligent High-Beam headlamps offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or tail lamps of vehicles ahead so you can see and be seen.

Images shown for illustrative purposes. South African vehicle specifications may differ.

OBSESSED WITH PLUG-IN HYBRID ELECTRIC VEHICLES

The unique Plug-in Hybrid Electric Vehicle (PHEV) technology represents more than our obsession with innovation. It represents our ongoing obsession with creating vehicles for an increasingly cleaner, healthier world. In the Lexus RX 450h+, a powerful 136kW, 2.5-litre, four-cylinder engine is paired with an 18.1kWh, high-performance lithium ion battery, allowing this astonishing vehicle to use electricity as its primary power source, with the convenience of petrol when needed. And that means less petrol is used on any journey. Even when the battery is running low, the vehicle switches to hybrid mode rather than petrol alone, maintaining and charging the battery level as you drive. All of which results in lower emissions – and exceptional driving responsiveness for ultimate control and peace of mind.

MAINTENANCE

INTRODUCTION

At Lexus, we take pride in the advanced engineering and craftsmanship of the vehicles we build. For that reason, our Warranty and Distance Plans are designed to provide Lexus owners with seamless vehicle maintenance and complete peace of mind. The Lexus Warranty and Distance Plans both enjoy full support by Lexus SA and offer customers access to specialised servicing, maintenance and repair at any Lexus dealer in South Africa, Namibia and Botswana.

WARRANTY AND DISTANCE PLANS

To complement its comprehensive Warranty, the RX features a Distance Plan Complete that provides for service and maintenance costs. The option to extend the period of cover is available for both the Warranty and Distance Plan Complete. These options can be discussed with your Lexus dealer. To familiarise yourself with the cover provided by Warranty and Distance Plan on the RX, please consider the information below.

DISTANCE PLAN

For the Lexus RX, all Distance Plans have been improved. All Lexus RX models are covered by Distance Plan Complete, a full maintenance plan for 7 years/105 000km, as well as a comprehensive manufacturer's Warranty. The hybrid battery has a Warranty of 8 Years/195 000km.

Consult with your Lexus dealer for more information on the terms and conditions of the Warranty and Distance Plan Complete offered on the RX.

WARRANTY

- Duration: 7 Years or 105 000km from original date of sale.
- Cover: Repair or replacement of components that fail or malfunction as a result of manufacturing or material defect.

LEXUS LIFE

Our online magazine, Lexus Life celebrates innovative design, sustainable technologies and premium experiences around the globe.
